

# LAN Index

LAN Only - These links will only work when connected from the local network.

<http://10.20.10.75:83> or <http://nuc.zgp.us:83> - PiHole, again. Obviously, only the direct IP link works.

<http://nuc.zgp.us:8181> - Tautulli for Plex analytics

<https://nuc.zgp.us:8282/containers> - Nextcloud container management

<http://nuc.zgp.us:81> <http://localhost:81> - Nginx Proxy Manager

<http://10.20.10.61:10000> - Firebat01 Webmin

<http://10.20.10.62:10000> - Firebat02 Webmin

<https://10.20.10.61:9443> - Firebat01 Portainer

<https://10.20.10.75:9433> - NUC Portainer

There's a lot more but I haven't set them up, yet.
